Director of Central Intelligence

I am convinced that the strong support the Air Force has given the DCI Exceptional Intelligence Analyst Program during the last four years has benefited the Intelligence Community and improved our intelligence analysis.

It gives me great pleasure to continue to nominate some of our outstanding analysts for the 1984 program. We have encouraged these experts to take a sabbatical to research key intelligence issues that concern us all. I would appreciate your favorable consideration.

JAMES C. PFAUTZ, Maj Gen, USAF
Act Chief of Staff, Intelligence
